

Summer Camp Create: Junior Counselor Volunteer Opportunity

ABOUT ARTSCOPE

It is the Mission of Artscope to provide a safe and educational environment for children to explore the Arts and to strengthen the ties within the Saint Louis community.

TEACHING PHILOSOPHY

Artscope's teaching philosophy centers around the development of creative skills in young people. At Artscope we believe that creativity is a skill that can be developed with practice, not a special talent a child either has or doesn't have.

We believe ALL children are creative, and what they need to express their creativity is an opportunity to practice the creative skills that art-making teaches in a supportive and failure-free environment.

By encouraging children to develop an artistic idea and follow it through to a conclusion, using whatever materials and resources are available, we help them build confidence in their own creative abilities.

We also believe in the power of play and the benefits of immersion in nature. At Artscope, children spend as much time outdoors as the weather allows, exploring their surroundings, inventing new games, and connecting with friends. Artscope is also a technology-free zone, a rare space in our modern world.
